SAFETY

All Van Care's Van Racking Kits are tested extensively. Crash tests are continuously being carried out at specialized research centers.

Simulation, load capacity and vibration tests are continuously researched and performed.

Time and time again our products have proven to be extremely safe. Take these results from one of our frontal impact tests for example.

The speed of the crash test was increased from 32km/h to 50km/h. According to the report, the material had been deformed, but without creating dangerous situations for the passengers due to the loosening of parts.

SAFETY & QUALITY

ARE OUR MAIN GOALS

PROVEN QUALITY OF OUR PRODUCTS

Van Care guarantees optimal safety, today and in the future. Everything is made for functional use and safety during work and transport. The production is fully certified and complies to ISO 9001:2015 and TÜV requirements.
